RE: The addition of our frozen treat line

Dear Ken,

Now that the dust has settled and our new line is in full operation I just wanted to take the time to thank you and your firm for all your help in taking our production capacity to the next level. I think it's safe to say that we would not have been able to pull this off without your expertise, attention to detail and construction experience. We especially appreciate your guidance in getting us through the permitting process with the MUA. Receiving their approval was something that was critical to this project moving forward.

If you ever need us to provide you with a reference for any other projects or if we have the opportunity to recommend you to another facility here in the industrial park, we will be happy to do so without hesitation. We can honestly say that working with your firm on our project was a smooth and painless process and we will certainly call on you for our next expansion project.

Wishing you continued success.

Sincerely,

Kevin Shaw 
Facility Manager
